PRIVATE SECRETARY'S OFFICE.

NOTIFICATION

PRINCE OF WALES' ROYAL INDIAN MILITARY COLLEGE, DEHRA DUN

No. 1.—(1) In connexion with the admission of candidates to the Prince of Wales' Royal Indian Military College, Dehra Dun, the following information is published for the use of intending candidates.

The College provides a public school education on English lines for Indian and Anglo-Indian youths who desire subsequently to enter the Indian Military Academy, Dehra Dun, or the Royal Air Force College, Cranwell, England, with a view to obtaining Commissions in the Indian Army. It is intended for those who wish to make the Army their profession in life. The course of study at the College will, however, be such that, should a boy fail in the Army and Air Force Entrance Examinations, he will be in an favourable a position for entry to a university as if he had been educated at an ordinary school.

(2) Candidates will be selected from unmarried Indian and Anglo-Indian boys of—

(a) Provinces of British India.

(b) Indian States.

Nominations will be made by His Excellency the Commander in Chief on the recommendation of the Local Government or Administrator or the Political Officer, as the case may be.

(3) Candidates must have attained the age of eleven years and be under twelve years on the 20th January 1934.

(4) Candidates should attach to their applications a medical certificate from the Officer Commanding a British or Indian Station Hospital or a Civil Surgeon to the effect that they are physically fit in all respects in accordance with Appendix A to this notification.

(5) The fees will be Rs 1,500 for each school year and are liable to enhancement hereafter, if circumstances require. These fees will include tuition, messing, school servants, washing and mending and medical attendance of the ordinary kind, and, as initial provision, one suit of the uniform to be worn by students when at the College.

In addition to the fees referred to above, the parent or guardian of a cadet will be required to deposit with the College authorities, on his entering the College, the sum of Rs 50 which will be returned when the cadet finally leaves the College provided that all dues have been paid.

In the event of it becoming necessary for cadets to be admitted into a civil hospital, all charges incurred will be borne by the parents or guardians of the cadets.

A full term's notice is required to be given of intention to withdraw a cadet from the College. In the event of such notice not being given, the parent or guardian will be required to pay one full term's fees in lieu, unless it is considered that the circumstances in which the cadet was withdrawn are such as to call for special consideration.

Parents or guardians of candidates who are sons of Indian Officers of good service are informed that owing to the present financial stringency no reduction of fees will be granted for some years to come.

(6) Entry to the College will not be open to candidates who are already married.

(7) Parents or guardians of candidates are required to attach to the applications a declaration (in duplicate) in the following form:—

"I, _____, father/guardian of _____, a candidate for admission to the Prince of Wales' Royal Indian Military College, Dehra Dun, declare that it is my desire that my son/ward should make the Army his profession in life.

"I, _____, father/guardian of _____, a candidate for admission to the Prince of Wales' Royal Indian Military College, Dehra Dun, hereby undertake to make myself acquainted with the Fees payable at that College, and subsequently, at the Indian Military Academy, Dehra Dun (viz., Rs. 4,500 for a course of three years), and at the Royal Air Force College, Cranwell, England (which are, for the present, laid down in paragraph 37-A of the 'Provisional Regulations respecting admission of Indian gentlemen to the Royal Military Academy, Woolwich, the Royal Military College, Sandhurst, and the Royal Air Force College Cranwell' as inserted by amendment No. 7 of October 1931), am able and willing to pay the prescribed fees and meet the incidental expenses.

I also understand that in the event of my son/ward not adopting the Indian Army as his profession for reasons within his control or mine, I shall be required to pay the full cost which Government may have incurred on his education at the said College.

"I, _____, father/guardian of _____, a candidate for admission to the Prince of Wales' Royal Indian Military College, Dehra Dun, hereby declare that my son/ward is unmarried and that he will remain a bachelor whilst at the College and until he has completed, subsequently, a course at the Indian Military Academy, Dehra Dun, or the Royal Air Force College, Cranwell, England."

Signature of parent
or guardian _____

(8) One general mess will be maintained. All students will be required to mess together. Special care will be taken that no food is served in the mess which could in any way offend the religious susceptibilities of any student.

(9) All applications should be submitted to the Private Secretary to His Excellency the Governor of Madras, Madras Governor's Camp, not later than the 15th November 1933 in the form below. No applications received after the 15th November 1933 will be considered.

FORM OF APPLICATION.

(To be sent in duplicate.)

1 Name in full. *(To be typewritten or hand printed.)*

2 Date of birth. *(This must be definitely stated and supported by documentary evidence.)*

3 Name, occupation and address of father or guardian.

4 Caste or tribe.

5 Permanent address in India.

6 Brief resume of military service rendered by candidate's father and near relatives and statement of his father's financial position. (Required only in the case of the sons of Indian Officers.)

7 Medical report.

Place _____

Date _____

Signature of Candidate.

(10) Candidates are informed that no travelling allowance is admissible in the event of their being summoned to Madras or Ootacamund, as the case may be, for the purpose of interviewing His Excellency the Governor.

(11) Detailed information regarding the aim and scope of the course of training and the rules to be observed by parents and guardians of cadets nominated to join the College are contained in the pamphlet entitled "Regulations for the Prince of Wales' Royal Indian Military College, Dehra Dun."

Copies of the above Regulations and of the Provisional Regulations regarding admission of Indian gentlemen to the Royal Military Academy, Woolwich, the Royal Military College, Sandhurst, and the Royal Air Force Cadet College, Cranwell, mentioned in paragraph 7 above, can be had from the Manager, Central Publication Branch, 8, Hastings Street, Calcutta, price annas 2 and 4 per copy, respectively.

APPENDIX A.

Information respecting the medical examination of candidates for admission to the Prince of Wales' Royal Indian Military College, Dehra Dun.

1. The medical examination of candidates for admission to the Prince of Wales' Royal Indian Military College, Dehra Dun, should invariably be made by—

(a) the Officer Commanding a British or Indian Station Hospital, or fixing (a),

(b) a Civil Surgeon,

2. A standard for height and chest measurements and physical development cannot be laid down, but the candidate should not be below the average for his age and race.

3. The standard of the minimum of acuteness of vision with which a candidate will be considered fit is—

Better eye.

Distant vision V — 6/9.
Near vision reads 0·6.

Worse eye.

Distant vision not below 6/60
After correction with glasses not below 6/12.
Near vision reads 0·6.
Snellen's types should be used.

Each eye must have a full field of vision as tested by hand movements.

Squint or any morbid condition of the eyes or on the lid of either eye liable to the risk of aggravation or recurrence will cause the rejection of the candidate.

Each eye will be examined separately. The candidate will be required to read the tests in ordinary daylight.

Inability to distinguish the principal colours will not be regarded as a cause for rejection, but the fact will be noted in the proceedings and the candidate will be informed.

No relaxation of the standard of vision will be allowed.

4 The following additional points will then be observed:—

(a) That his hearing is good.

(b) That his speech is without impediment.

(c) That his teeth are in good order. He must have nine (9) sound teeth in the upper jaw functionally opposed to nine (9) sound teeth in the lower jaw. Two of these teeth in each jaw must be molars. Well filled teeth will be considered as sound.

(d) That his chest is well formed and that his lungs and heart are sound.

(e) That he is not ruptured.

(f) That he does not suffer in a fair degree of varicocele or varicose veins. A candidate who has been successfully operated on will be accepted.

(g) That his limbs are well formed and developed.

(h) That there is free and perfect motion of all the joints.

(i) That his feet and toes are well formed.

(k) That he does not suffer from any inveterate skin disease.

(l) That he has no congenital malformation or defect.

(m) That he does not bear traces of previous scrofula or chronic disease pointing to an impaired constitution.

(n) That the candidate's age is as near as possible correctly stated.

Simla, the 21st August 1933.

No. F. 114/XVII/33.—His Excellency the Viceroy and Governor-General of India has been pleased to confer the Indian Police Medal on the following officer :—

Name of officer and Rank.	Statement of service for which the decoration has been conferred.
	MADRAS.
Mandikal Kodi Nayar, Head Constable.	On the night of 27th April 1933, Sub-Inspector Arokiaswami Pillai accompanied by Head Constable Kunju Nayar, was investigating a daring armed dacoity committed the previous day and was questioning a suspect when the latter suddenly attempted to draw a revolver from his pocket. The Sub-Inspector immediately seized the man who succeeded however in firing through his pocket, severely wounding the Sub-Inspector in the abdomen. Head Constable Kunju Nayar, who had simultaneously grappled with the miscreant, was undeterred by this murderous act and with courage and determination held on to his man until he finally succeeded in overpowering and disarming him.

S. R.—The award is made for gallantry under regulation 4 (1) of the regulations governing the grant of the Indian Police Medal and consequently carries with it the special allowances admissible to officers of and below the rank of Inspector of Police.

Reasons for Demarcation.—The area proposed for discrimination consists of S. No. 4/2 of Kodakiarla village and S. Nos. 1-11 and 1/3 of Kondakiarla Bans and has been mistaken for unassessed waste by the Revenue authorities with the result that the trees grown in that area was disposed of by them in accordance with B.T. Rt. No. 3253, dated 23rd October 1925.

This mistake arose through the reserve boundary having been cut wrongly on the ground. Actually the reserve line follows the western boundary of the area proposed for demarcation.

(G.O. Ms. No. 1093, Development).

No. 314.—In exercise of the powers conferred by clause (a) of sub-section (1) of section 3 of the Madras Agricultural Pests and Diseases Act III, 1919, as amended by Act VII of 1925, the Government of Madras, Ministry of Public Works, hereby declare that the "Hairy Caterpillar" (*Amsacta albistriga*) is an insect pest in respect of dry crops such as groundnut, cumbu ragi, etc.

In order to eradicate this insect pest, the Government of Madras in the Ministry of Public Works direct under clauses (b) and (c) of sub-section (1) of section 3 of the Act that with effect from 15th September 1933 all parent moths which emerge after the first heavy rains as well as the egg masses laid by them in the tracts specified below should be promptly hand-picked and killed by crushing or burying them deep. Any neglect on the part of a ryot in having moths and egg masses promptly hand-picked will lead to the hatching of innumerable caterpillars and their subsequent invasion of the fields of his neighbours it shall be incumbent on him to have the caterpillars either hand-picked or prevented from straying into other fields by digging trenches. This notification will be in force till 31st October 1933.

District.	Area.
North Arcot	The whole of Tiruvannamalai and Polur taluks.

The Government further direct, under section 13 of the above Act, that village officers adjoining the notified area within whose limits a pest similar to the insect pest within the notified area shall appear, shall report the same to the Collector.

No. 315.—Under sub-section (2) of section 3 of the Madras Agricultural Pests and Diseases Act, 1919, as amended by Madras Act VII of 1925, the Government of Madras are pleased to direct that the notification prescribing the preventive or remedial measures for the eradication of the insect pest (Hairy Caterpillar) attacking the crops in the Tiruvannamalai and Polur taluks in the North Arcot district shall be promulgated by tom tom and copies of the notification shall be posted in the village chavadi or other prominent place before the date on which it comes into force.

No. 316.—In connexion with the eradication of the Hairy Caterpillar (*Amsacta albistriga*) in the notified areas in the North Arcot district, the following are appointed inspecting officers under section 10 of the Madras Agricultural Pests and Diseases Act III, 1919, as amended by Madras Act VII of 1925 :—

Upper subordinates of the Agricultural Department, Revenue Inspectors, village headmen and village accountants in the local areas concerned.

No. 317.—In exercise of the powers conferred by section 21 of the Madras Agricultural Pests and Diseases Act III, 1919, as amended by Madras Act VII of 1925, the Government of Madras are pleased to issue the following rules :—

(1) The notice of demand of charges under section 8 of the Act shall be in Form A and shall be served by delivering a copy to the occupier of the land or to some adult male member of his family at his usual place of abode or to his authorized agent or by affixing a copy thereof in some conspicuous part of the land on which the prescribed remedial or preventive measures have been taken.

(2) A copy of the notice of demand shall also be communicated to the village officer and the taluk office. The inspecting officer shall maintain a register in Form B.

(3) In dealing with appeals under section 8, the Collector shall record his order under sub-section (2) of section 8 in writing and communicate a copy thereof free of charge to the appellant.

FORM A.

No. 318.—The following resolution of the Government of India is republished :—

DEPARTMENT OF COMMERCE.

TARIFF.

Simla, the 26th August 1933.

No. 263 T.-(3)/33.—The protection afforded to certain manufactures of iron and steel by the Steel Industry (Protection) Act, 1927, as subsequently amended, will determine on the 31st day of March 1934. Clause 3 of that Act provides that the Governor-General in Council shall, not later than the 31st day of March 1934, cause to be made by such persons as he may appoint in this behalf, an enquiry as to the extent, if any, to which it is necessary to continue the protection of the steel industry in British India and as to the manner in which any protection found necessary should be rendered. The Government of India have decided that the prescribed Statutory Enquiry should be undertaken by the Tariff Board and the following terms of reference have been framed for its guidance :—

(a) The Board is requested to re-examine the measure of protection now enjoyed by the steel industry under the Steel Industry (Protection) Act of 1927, as subsequently amended the Wire and Wire Nail Industry (Protection) Act of 1932 and the Indian Tariff (Ottawa Trade Agreement) Amendment Act of 1932 and to report in respect of each protected article whether it is still necessary to continue protection and, if so whether the existing measure of protection should be increased or diminished or whether the manner in which protection is conferred should be altered.

(b) In dealing with the wire and wire nail industry the Board will bear in mind the considerations set forth in

paragraphs 3, 4 and 5 of its 1931 Report on the Wire and Wire Rail Industry and will consider whether the first of the conditions prescribed by the Indian Fiscal Commission in paragraph 97 of its Report is now satisfied.

(c) In making its recommendations the Tariff Board will take all relevant considerations to be now found in the Resolution adopted by the Legislative Assembly on the 16th February 1923.

(d) The Board will also be at liberty to examine the claims for protection of industries making iron and steel products which do not come within the scope of the present Acts and to report whether, having regard to the principles laid down in para-graph 97 of the Report of the Indian Fiscal Commission such claims should be admitted, and, if so, the nature and extent of the protection that should be given.

2. Firms or persons interested in the iron and steel industry or industries dependent on the use of iron and steel, who desire that their views should be considered by the Tariff Board should address their representations to the Secretary of the Board.

Fort St. George, September 1, 1933.

Whereas it appears to the Government that the lands specified below are needed for a public purpose, to wit, for field channels of the Grand Anicut Canal System of the Cauvery-Mettur Project, notice to that effect is hereby given to all those whom it may concern in accordance with the provisions of section 4 (1) of the Land Acquisition Act I of 1894, as amended by the Land Acquisition Amendment Act XXXVIII of 1923; and, the Governor in Council authorises the Special Deputy Collector, Mannargudi No. II at Tanjore, his staff and workmen to exercise the powers conferred by sections 6 (2) of the Act. Under sub-section (4) of section 17 of the Act, the Governor in Council directs that in view of the urgency of the case the provisions of section 5-A of the Act shall not apply to this case.

ANNAMALAI UNIVERSITY.

ANNUAL CONVOCATION, OCTOBER 1933.

A convocation for conferring degrees and titles and for the award of diplomas will be held in Annamalainagar on Thursday, the 26th October 1933 at 8 a.m.

Applications from candidates for degrees or titles in the prescribed form must be made so as to reach the *Registrar* not later than Tuesday, the 10th October 1933. Printed forms of application for the purpose can be obtained from the office of the Registrar on application made in person or by post. Special forms of application are available for candidates taking their degree *in absentia*. Candidates are requested to specify the degree which they desire to take at the convocation.

The fee for taking a degree *in absentia* is Rs. 10.

The fee referred to above should be paid into the Imperial Bank of India, Madras, or into any one of the Government treasuries and the receipt therefor submitted to this office with the application for admission to convocation.

Applications not prepared in the prescribed form, or defective in any particular or received after the prescribed date will not be accepted. Candidates are advised, as a safeguard against the miscarriage or non-delivery of applications, to submit the same much earlier than the *prescribed* date. Enquiries from candidates as to the receipt of their applications in the office of the Registrar will not receive attention. *Each application, if accompanied by an addressed* post card, *will, however,* be *acknowledged by the return of the post card, with the University stamp duly impressed thereon.*

Cards of admission to the convocation will be issued on Friday, the 20th October 1933, to the address given in the application. Candidates, besides giving their permanent address must also give the address to which tickets of admission should be despatched. Candidates for degrees or titles who are not in receipt of their cards of admission are requested to communicate the fact promptly to the Registrar and obtain at the University Office duplicate cards which will be issued by the Registrar.

Candidates for degrees or titles are requested to be in attendance at the Convocation Hall not later than 7 a.m. They are required by the Laws to wear the correct gowns and hoods pertaining to their respective degrees.

7. No notice will be taken of the application of a candidate who selects a centre which is not included in the list of centres given in paragraph 2 above. The place of examination entered in the application must invariably be the place where the candidate is employed or generally resides or if it is not a centre the place nearest to it where the examination is held.

8. A candidate cannot be allowed to change the place of examination named by him in his application unless application is made on his behalf by the head of the office in which he is employed and it is also certified by him, or by the candidate's immediate superior, if the candidate is himself the head of an office, that the change is necessary in the interest of the public service. *Such applications for change of centre should be made sufficiently early so as to reach the Commission's office not later than 15th November 1933. Applications received after that date will not be considered.*

A candidate changing the place of examination without the permission of the Madras Services Commission must be prepared to forfeit his examination unvalued.

9. In submitting an application for admission to the examination the candidate will be deemed to have given an undertaking that he will abide by all the rules now in force or those to be brought into effect hereafter in respect of that examination. Any candidate who does not behave properly towards the Chief and Assistant Superintendents of the examination or is suspected of having had recourse to malpractice of any kind is liable to have his examination invalidated and also to be debarred from appearing again for any of the examinations for such term of years as the Madras Services Commission may think fit, or, if the Commission is not satisfied for any reason whatever as to the trustworthiness of his results, he may be required to undergo a re-examination at some future date to be fixed by the Commission in any one or more of the subjects of the examination for which he appeared, his success or failure being determined on the results of such re-examination.

10. Subject to any change that may be found to be necessary, the examinations will be conducted in the order of time and subjects shown in the annexure to this notification.

APPOINTMENT OF SERGEANTS, MADRAS POLICE SUBORDINATE SERVICE.

Applications are invited for the appointments of Sergeants, Madras Police Subordinate Service.

2 An applicant should satisfy the following conditions:—

(a) he must have served in the British Army for at least three years;

(b) his age as proved by evidence mentioned in paragraph 6 below must be under 43 years on 1st December 1933, i.e., he must have been born on or after 2nd December 1888;

(c) he must not be less than 5 feet 8 inches in height and 34 inches round the chest on full expansion and his chest expansion must not be less than 2 inches;

(d) he must have obtained at least a second class certificate of education;

(e) his character in the Army must have been certified as at least 'good';

(f) he must be of sound health, good physique and active habits and free from any defect unfitting him for Government Police Service.

3. Every applicant must pay a fee of Rs. 10 into a Government treasury or into the Imperial Bank of India, Madras, or any of its branches to the credit of the Madras Government under the following head of receipt:—"XXVI. Miscellaneous Departments—Examination Fees—Fees for Examinations—Madras Services Commission." *On no account will this fee be refunded. Applicants are therefore advised, before paying the fee, to satisfy themselves that they fulfil the conditions prescribed in this notification.*

Note.—Applications of candidates who send such fees in currency notes for the payment of the prescribed fee will not be admitted. The money should be remitted into a Government treasury or bank and the chalan only should be forwarded.

4. Forms of application and of medical certificate can be obtained from the Secretary, Madras Services Commission, Tuynampet P.O., Madras, on requisition with a *stamped* envelope *addressed to the person requiring them. No notice will be taken of a requisition not accompanied by a stamped envelope.*

5. Every application must be in the applicant's handwriting; it must not be typewritten.

6. Every application must be accompanied by the following documents:—

(a) Evidence of date of birth, viz., a duly certified birth certificate issued by a public authority;

(b) his certificate of education;

(c) his certificate of discharge from the army;

(d) at least two other certificates of character and conduct in original;

Note.—An applicant who is still serving in the Army at the time of application may send in lieu of items (c), (d) and (e) above, a certificate from the Officer Commanding his Unit stating the date of the candidate's birth as entered in the records of the Army, his educational qualifications, the total period of his service in the British Army and the period of his service and his rank in each Unit.

(e) a medical certificate in the prescribed form;

Note.—A medical certificate dated earlier than 1st November 1933 will not be accepted.

(f) the treasury or bank receipt for the payment of the fee of Rs. 10.

7. Every application (with all the enclosures securely fastened to it) should be sent by registered post direct to the Secretary superscribed and addressed as follows:—

"*Application for appointment as Sergeant, Madras Police Subordinate Service.*

To

The Secretary, Madras Services Commission,
Tuynampet P.O., Madras."

8. Applications must reach the Secretary on or *before* the 12th October 1933. Applications received after that date and applications in respect of which certificates in proper form and in original have not been received on or before that date will not be considered.

9. *Applicants must be prepared to appear in Madras before the Commission at their own expense on a date which will be communicated to them.*

Applicants should note that their selection for interview does not guarantee selection for appointment.

10. A selected candidate will be on probation for a total period of one year on duty from the date on which he joins duty as such. Any period spent in vocational training in the Madras Police Department prior to discharge from the Army, will count towards probation. During probation, his pay will be at the rate of Rs. 100 per mensem.

Within the period of probation, a candidate selected for appointment as Sergeant in the mufassal shall undergo during the first four months a special course of training in the Provincial Police Training School, Vellore and thereafter practical training for a period of one month, and a rank late selected for appointment in the City of Madras shall undergo a course of training in the City both theoretical and practical for a period of three months.

At any time before the end of the prescribed period of probation, or at the end thereof, the probation of a selected candidate may be terminated and his services dispensed with.

11. On successful completion of his probation, a selected candidate will be appointed as Sergeant, third grade, on Rs. 104 per mensem. He will be eligible for progressive promotion to the second and first grades on a pay of Rs. 113 and Rs. 200 respectively and as Sergeant-Major and Reserve Inspector, if he successfully passes the prescribed tests.

Free quarters and free uniform are provided.

A candidate selected for appointment will be required to serve wherever he is posted in the Madras Presidency.

12. An applicant will be disqualified who attempts to elevate or to bring influence to bear on the Chairman or any member of the Commission personally or by letter. The same penalty will be imposed if any relative friend, patron, official or other person attempts or influences the Chairman or any member of the Commission on behalf of any candidate.

13. All communications intended for the Commission must be made in writing and addressed to the Secretary.

Office of the Madras Services Commission,
Tuynampet P.O., Madras, 8th September 1933.

OFFICIAL ADVERTISEMENTS.

TENDER FOR THE SUPPLY OF CAST IRON PIPES AND SPECIALS FOR THE DISTRIBUTION SYSTEM AND PUMPING MAIN OF SAIDAPET WATER-SUPPLY SCHEME.

TENDERS on lump-sum contract will be received by the Superintending Engineer, Madras Circle, at his office at Madras, up to 4 p.m. on 2nd October 1933 for the supply of cast iron pipes and specials for the distribution system and pumping main of Saidapet Water-supply Scheme.

The tender should be in the prescribed form obtainable from the Superintending Engineer's office at Executive Engineer's Office, Chingleput Division at Chepauk, Madras.

2. Tenders must be submitted in sealed covers, and should be addressed to the Superintending Engineer, Madras Circle, the name of the tenderer and the name of the work being noted on the cover.

If the tender is made by an individual, it shall be signed with his full name and his address shall be given. If it is made by a firm, it shall be signed with the co-partnership name by a member of the firm, who shall also sign his own name, and the name and address of each member of the firm shall be given. If the tender is made by a corporation, it shall be signed by a duly authorised officer who shall produce with his tender, satisfactory evidence of his authorization. Such tendering corporation may be required, before the contract is executed, to furnish evidence of its corporate existence.

3. Each tenderer must pay, as earnest money, a sum of rupees eight hundred only (Rs. 800), into the branch of the Imperial Bank of India or into the Government treasury or sub-treasury within the jurisdiction of the Executive Engineer, C.S. Division, to the credit of Revenue Deposits on behalf of the Executive Engineer of the Chingleput Division and enclose with his tender the chalan endorsed accordingly. The earnest money will be refunded to the unsuccessful tenderers on application, after intimation is sent of rejection of the tender or at the expiration of two months from date of tender, whichever is earlier. The refund will be authorised by the Executive Engineer by suitable endorsement on the chalan. The earnest money will not be received in cash or currency notes.

The earnest money will be retained in the case of the successful tenderer, and will not carry any interest. It will be dealt with as provided in the tender.

4. When a tender is to be accepted, the tenderer whose tender is under consideration shall attend the circle office on the date fixed by written intimation to him. He shall forthwith upon intimation being given to him by the Superintending Engineer of acceptance of his tender make a security of rupees three thousand in one of the forms prescribed in the Madras Public Works Account Code and sign an agreement in the proper departmental form for the due fulfilment of the contract. This security deposit together with the earnest money and amounts withheld according to clause 68 of the standard preliminary specifications of Madras Detailed Standard Specifications will be retained as security for the due fulfilment of the contract. If a cash security deposit is made by the contractor he shall follow the procedure laid down in the preceding paragraph for payment of earnest money and such deposit will not bear interest. Failure to enter into the required agreement or to make the security deposit as defined in this paragraph shall entail forfeiture of the earnest money.

5. The tenderer shall examine closely, the Madras Detailed Standard Specifications, and also the Standard Preliminary Specification contained therein, and sign the Divisional Office copy of the Madras Detailed Standard Specifications and its addenda volume in token of such study before submitting his tender unit rates which shall be for finished work in situ. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras Detailed Standard Specifications and other documents connected with the contract such as specifications, plans, deposit piece specification sheet regarding materials, etc., can be seen at any time between 11 a.m. and 5 p.m. on office days, in the office of the Superintending Engineer, Madras Circle. A copy of the set of contract documents can also be had on payment of Rs. 2 for each set.

6. The tenderer's attention is directed to the requirements for materials under the clause 'Materials and workmanship' in the 'Preliminary Specification.' Materials conforming to the British Standard Specifications shall be used on the work, and the tenderer shall quote his rates accordingly.

7. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work. He should also inspect the quarries, and satisfy himself about the quality and availability of materials. The names of quarries, kilns, etc., wherefrom certain materials are to be obtained will be given in the Descriptive Specification Sheet. The best class of materials to be obtained from the quarries or other source defined shall be used on the work. In every case the materials must comply with the relevant standard specification. Samples of materials as called for in the standard specifications, or in this tender notice, or as required by the Executive Engineer in any case, shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor, after examination of the source of materials defined in the Descriptive Specification Sheet is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the Descriptive Specification Sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials, subject to the approval of the Executive Engineer.

The Government will not, however, after acceptance of a contract rate pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the standard 'Preliminary Specification' regarding payment of seigniorage, tolls, etc.

8. The tenderer's particular attention is drawn to the sections and clauses in the standard 'Preliminary Specification' dealing with—

(1) test, inspection and rejection of defective materials and work,
(2) outrige,
(3) construction plant,
(4) water and lighting,
(5) clearing up during progress and for delivery,
(6) accidents,
(7) delays, and
(8) particulars of payment.

The contractor should closely peruse all the specifications clauses which govern the rates which he is tendering.

9. A schedule of quantities accompanies this tender notice. It shall be definitely understood that the Government does not accept any responsibility for the correctness or completeness of the schedule, and that this schedule is liable to alterations by omissions, deductions, or additions at the discretion of the Executive Engineer, Chingleput Division, or as set forth in the conditions of contract. The tenderer will, however, base his L.S. tender on the schedule of quantities. He should quote specific rates for each item in the schedule, and the rates should be in rupees, annas, and in terms of three pies. The rates should be written both in words and figures and the units in words. The tenderer should also show the totals of each item and the grand total of the whole contract, and quote in the tender a lump sum for which he will undertake to do the whole work subject to the conditions of contract. The schedule accompanying L.S. tender shall be written legibly and free from erasures, overwritings or conversions of figures. Corrections, where unavoidable, should be made by crossing out, initialing, dating and rewriting.

10. Tenders offering a percentage deduction from or increase on the estimate amount, and those not submitted in proper form or on due time will be rejected. Rates or lump-sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form, the conditions of contract, the drawings, specifications, or quantities accompanying same will be recognised; and if parties have any such alterations this should be done by letter covering the tender.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12. The price at which and the source from which certain particular materials shall be obtained by the contractor are given at the end of the schedule accompanying the tender form. Tenderers must accept the material at these prices, and shall quote their price for finished work accordingly. Notwithstanding any subsequent change in the market value for these materials, the change to the contractor will remain as originally entered in the written contract. No carriage or incidental charges will be borne by Government in connexion with this supply.

13. The attention of the tenderers is directed to the contract conditions as to the time of beginning work, the rate of progress, and the dates for the completion of the whole work and its several parts. The following rate of progress and proportionate value of work done from time to time, as will be indicated by the Executive Engineer's certificates of the value of work done will be required. Date of commencement of this programme will be the date on which orders from the Executive Engineer are received to start work after the acceptance of agreement by a competent authority

Period after date of commencement and percentage of work completed (based on contract lump-sum amount).

Four months—Fifty per cent of pumping mains and distribution system.

Six months—One hundred per cent.

14. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power-of-attorney authorising others to receive payment on the contractor's behalf.

15. If further necessary information is required the Superintending Engineer, Madras Circle or Executive Engineer, C. N. division, will furnish such, but it must be clearly understood that tenders must be received in order, and according to instructions.

16 The Superintending Engineer, Madras Circle, or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

CONTRACT No. I.

Conditions to accompany the tender notice for the supply of cast iron pipes and specials for distribution system and pumping mains

Pipes.—If not manufactured in India, the pipes and specials offered must be an India or on the way out at the time of the tender is submitted and furthermore if in India they shall be purchased through one or more of the firms approved by the Chief Controller of Stores, Indian Stores department as set down in list No. I appended to the Stores Purchase Rules (G.O. No. 905, dated 2nd December 1926). As supply of cast iron pipes and specials is passed from time to time, despatch memoranda issued by the Controller of Inspection or the Resident Inspector on staff appointed by the Government of Indian Stores department on behalf of the manufacturing firm should be furnished affording proof thereby that the consignment had been passed on the purchaser's behalf and the pipes should invariably be stamped by the above Covenant as after satisfying the quality of materials, accuracy of dimensions, pressure testing of pipes, etc.

2. The contractor shall unload from railway wagons and deliver in the railway station yard, Saidapet the cast iron pipes and specials as per schedules detailed and attached. He shall bear all charges connected with manufacture loading (night), unloading and any other charges, which may be incurred till the pipes are delivered, inspected and passed in Saidapet railway station yard.

3. The pipes and specials shall be spread out in order in Saidapet station yard by the contractor at his expense to facilitate inspection and the Government officers' check and determination of defective pipes or specials shall be accepted by the contractor. Quantities f.o.r., Saidapet, are subject to this condition.

4. The pipes and specials shall be delivered in quantities not exceeding two wagon loads at a time and there shall be at least four complete days between any two deliveries to allow time for inspection and carting away of the previous consignment.

5. A representative of the contractor shall always be present at the inspection and handing over the pipes and specials at Saidapet railway station yard.

6. All railway invoices shall be sent to the Sub-divisional Officer Public Works Department St. Thomas Mount, unless otherwise instructed by the Executive Engineer, Chingleput Division. The invoices shall invariably be accompanied by the despatch memoranda duly dated by the Controller of Inspection or the Resident Inspection staff appointed by the Government referred under model 5 above.

7. Subject to the provisions of clause 8 of the conditions the contractor shall deliver the pipes and specials in sound condition and properly coated with protective covering as per specification. In the event of the pipes and castings not complying with the specification, the contractor shall be informed in writing from the Executive Engineer forthwith remove the same at his own charge and cost and in the event of his neglecting to do so within one week of rejection the rejections may be removed at the contractor's risk and expense. The expenditure thus incurred will be deducted from any sums due or which may become due to the contractor.

8. If on inspection after unloading any of the pipes are found to be crushed the Executive Engineer may at his option on representation from the Subdivisional Officer accept at proportionate cost each of the sound and overhead lengths as may remain after the contractor has, at his own cost, cut off the cracked portion, as general no pieces will be accepted where the good length is less than half the length of the pipe, and socket ends only will be accepted. In the case of flanged pipes, only full lengths will be accepted, cracked spigots will not be accepted. If lengths other than full lengths are taken over the contractor shall pay for all extra joints which shall be counted through the supply of shorter lengths and any other additional expenses entailed through their use. All pipes on arrival will be inspected by eye and sounded by hammer. Any pipe not ringing clearly will be inspected carefully with a microscope and if found to be cracked will be marked forthwith unless it is clocking that the cracked will not be accepted for use in which case the pipe will be removed from the yard within two days. A demurrage or wharfage charges shall be borne by the contractor until he hands over the accepted pipes excepting in so far as any delays which take place at the railway yard can be proved to the fault of the officer or subordinate employed by the Executive Engineer to take over the pipes.

9. The contractor shall replace all rejected pipes and specials at his own cost if required in writing to do so.

10. The contractor shall receive payment for each consignment of such pipes and pipe pieces and castings as are approved and passed by the Executive Engineer or his assistant.

11. The contractor will bear all responsibility for damage or loss in transit and shall deal directly with the railway authorities regarding damaged or missing pipes.

12 The contractor shall intimate beforehand to the Executive Engineer, Chingleput Division and to the Assistant Engineer, Public Works Department, St. Thomas Mount, the number of pipes and castings despatched, the date of despatch and the probable date of arrival at Saidapet station so that the latter may make necessary arrangements for inspection after unloading. If the contractor fails to intimate as above in time and if in consequence wharfage charges are incurred the contractor shall be held liable for such charges which shall be deducted from the amount due to him.

13 Other things being equal, preference will be given to parties tendering for the laying and jointing of the pipes and specials as per contract No. 2 in addition to the supply of the same.

14. (a) It is probable that articles mentioned in list "A" below will be supplied departmentally at site of work and the cost of the same will be recovered from the contractor's bills at rates quoted by him in the schedules for similar items.

(b) The quantities entered in the schedules in respect of cast iron pipes, bends, specials, etc., represent the gross quantity inclusive of those proposed to be supplied departmentally as shown in list "A."

TENDER FOR CARTING, LAYING AND JOINTING OF CAST IRON PIPES AND FITTINGS FOR THE PUMPING MAIN AND DISTRIBUTION SYSTEM OF SAIDAPET WATER-SUPPLY SCHEME.

Tenders on schedule 'contract will be received by the Superintending Engineer, Madras Circle, at his office at Chepauk, Madras, up to 4 p.m. on 2nd October 1933, for the work of carting, laying and jointing of cast iron pipes and fittings for the pumping main and distribution system of Saidapet Water-supply Scheme.

The tender should be in the prescribed form obtainable from the Superintending Engineer's office or Executive Engineer's office C.N. Division.

2. Tenders must be submitted in sealed covers, and should be addressed to the Superintending Engineer, Madras Circle, the name of the tenderer and the name of the work being noted on the cover.

If the tender is made by an individual, it shall be signed with his full name and his address shall be given. If it is made by a firm, it shall be signed with the co-partnership name by a member of the firm, who shall also sign his own name, and the names and address of each member of the firm shall be given. If the tender is made by a corporation, it shall be signed by a duly authorised officer who shall produce with his tender, satisfactory evidence of his authorization. Such tendering corporation may be required, before the contract is executed, to furnish evidence of its corporate existence.

3. Each tenderer must pay, as earnest money, a sum of Rs. 400 (rupees four hundred) into the branch of the Imperial Bank of India or into the Government treasury or sub-treasury within the jurisdiction of the Executive Engineer, C.N. Division to the credit of Revenue Deposits on behalf of the Executive Engineer of the Chingleput Division and enclose with his tender the challan tendered accordingly. The earnest money will be refunded to the unsuccessful tenderer on application after intimation in case of rejection of the tender or at the expiration of two months from date of tender, whichever is earlier. This refund will be authorized by the Executive Engineer by suitable endorsement on the challan. The earnest money will not be received in cash or currency notes.

The earnest money will be retained in the case of the successful tenderer, and will not carry any interest. It will be dealt with as provided in the tender.

4. When a tender is to be accepted, the tenderer whose tender is under consideration shall attend the Circle office on the date fixed by written intimation to him. He shall forthwith upon intimation being given to him by the Superintending Engineer of acceptance of his tender make a security deposit of Rs. 900 (rupees nine hundred) in one of the forms prescribed by the Madras Public Works Account Code and sign an agreement in the proper departmental form for the due fulfilment of the contract. This security deposit together with the earnest money and the amount withheld according to clause 64 of the Standard Preliminary Specification of the M.D.S.S. will be retained as security for the due fulfilment of the contract. If a cash security deposit is made by the contractor he shall follow the procedure laid down in the preceding paragraph for payment of earnest money and such deposit will not bear interest. Failure to enter

into the required agreement or to make the security deposit as defined in this paragraph shall entail forfeiture of the earnest money.

8. The tenderer shall examine closely, the Madras Detailed Standard Specifications, and also the Standard Preliminary Specification contained therein, and sign the Divisional Office copy of the Madras Detailed Standard Specifications and its addenda volume in token of such study before submitting his tender unit rates which shall be for finished work in situ. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras Detailed Standard Specifications and other documents connected with the contract such as specimens, plans, descriptive specification sheet regarding materials, etc., can be seen at any time between 11 a.m. and 4 p.m. on office days, in the office of the Superintending Engineer, Madras Circle. A copy of the set of contract documents can also be had on payment of Rs. 3 for each set.

9. The tenderer's attention is directed to the requirements for materials under the caption "Materials and workmanship" in the "Preliminary Specification." Materials conforming to the British Standard Specifications shall be used on the work, and the tenderer shall quote his rates accordingly.

7. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work. He should also inspect the quarries, and satisfy himself about the quality and availability of materials. The names of quarries, kinds, etc., which refer to certain materials to be obtained will be given in the Descriptive Specification Sheet. The best class of materials to be obtained from the quarries or other sources defined shall be used on the work. In every case the materials must comply with the relevant standard specifications. Samples of materials as called for in the standard specifications, or as this tender notice, or as required by the Executive Engineer at any time, shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor, after examination of the source of materials defined in the Descriptive specification Sheet, is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the Descriptive specification Sheet, he shall so state clearly in his tender and state therefrom he intends to obtain materials, subject to the approval of the Executive Engineer.

The Government will not, however, after acceptance of a contract rate, pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of conveyance, tolls, etc.

8. The tenderer's particular attention is drawn to the sections and clauses in the standard "Preliminary Specifications" dealing with—

(1) test, inspection and rejection of defective materials and work,
(2) carriage,
(3) construction plant,
(4) water and lighting,
(5) clearing up during progress and for delivery,
(6) accidents,
(7) octroi, and
(8) particulars of payment.

The contractor should closely peruse all the specifications clauses which govern the rates which he is tendering.

9. A schedule of quantities accompanies this tender notice. It shall be definitely understood that the Government does not accept any responsibility for the correctness or completeness of the schedule, and that the schedule is liable to alterations by omissions, deductions, or additions at the discretion of the Executive Engineer, Chingleput Division, or as set forth in the conditions of contract. The tenderer will be over, same have the schedule tender on the schedule of quantities. He should quote specific rates for each item in the schedule and the rate should be in rupees annas, and in figures of three pies. The rates should be written both in words and figures and the unit to be in words. The tenderer should also show the totals of each item and the grand total of the whole contract. This schedule accompanying the schedule notice shall be written legibly and free from erasures, overwriting or interpolation of figures. Corrections, where unavoidable, should be made by crossing out, initialling, dating and rewriting.

10. Tenders offering a percentage deduction from or increase on the estimate amount, and those not submitted in proper form or in due time will be rejected. Rates of lump-sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form, the conditions of contract, the drawings, specifications, or quantities as engraving same will be recognised; and, if parties have any such alterations this should be done by letter covering the tender.

11. The tenderer should work out his own rates without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12. The price at which and the source from which certain particular materials shall be obtained by the contractor are given at the end of the schedule accompanying the tender form. Tenderers must accept the material at these prices, and shall quote their price for finished work accordingly. Notwithstanding any subsequent change in the market value for these materials, the charge to the contractor will remain as originally entered in the written contract. No carriage or incidental charges will be borne by Government in connexion with the supply.

13. The attention of the tenderers is directed to the contract requirements as to the time of beginning work, the rate of progress, and the dates for the completion of the whole work and its several parts. The following rate of progress and proportionate value of work done from time to time, as will be indicated by the Executive Engineer's certificates of the value of work done, will be required. Date of commencement of this programme will be the date on which the first consignment of pipes is delivered at the station yard.

Period after date of commencement.	Percentage of work completed (based on contract lump-sum amount)
Six months	15 per cent of distribution and whole of pumping main.
Seven months	65 per cent.
Eight months	80 per cent.
Nine months	100 per cent.
Fifteen months ..	....
Eighteen months, etc. ..	....

14. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power-of-attorney authorising others to receive payment on the contractor's behalf.

15. If further necessary information is required, the Superintending Engineer, Madras Circle, or the Executive Engineer of the C.N. division will furnish such, but it must be clearly understood that tenders must be received in order, and according to instructions.

16. The Superintending Engineer, Madras Circle, or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

CONTRACT No. II.

Tenderer's conditions.

The rates quoted will include loading into carts at Saidapet station yard carting charges to Saidapet town (within the municipal limits), as in the site survey pipe and unloading into convenient depots, reloading and carting as lead necessary from the depot to the site of the work. They further include all breakages from the time the pipes and fittings are handed over for carting at Saidapet Railway station yard till the pipes are laid and certified to have passed a hydraulic test laid down in paragraph 6, Madras Detailed Standard Specifications, page 161.

2. All pipes which are cracked or broken by the contractor or his men between the time of taking over the pipes at Saidapet station yard and of laying and jointing the same at Saidapet town will be handed over to the laying contractor and the cost of the same at rates of supplying contractor plus 10 per cent in excess of such rate will be recovered from his monthly bills. The Sub-Divisional Officer however may allow cracked portions to be cut off and good lengths to be used in the work in which case the contractor will do the cutting at his own expense and will pay for any additional joints caused thereby and will be obliged to take over the cracked portions which have been cut off at the rates quoted by the pipe supplying contractor. If so ordered by the Assistant Engineer all cracked and broken pipes shall be removed from the site within three days. Flanged pipes, bends, tees, junctions, tapers, etc., which have been broken by the contractor will not be accepted for the work and the contractor shall pay for them. For the purposes of taking over pipes at Saidapet station yard a representative of the contractor shall be present

at the inspection and once the pipes are passed as sound and unchoked the contractor shall be responsible for all subsequent breakages.

3. The contractor will pay all demurrage or wharfage charges which may be incurred after the pipes have been landed at over 40 feet at Sankarpet station yard. According to the supplying contract the pipes will arrive in consignments of two wagon loads at a time and there will be four clear days at least between any two consignments so that there will be ample opportunity for carting away the pipes in time.

4. Skilled men and workmen required for jointing flanged ends of pipes, valves and specials will be supplied departmentally.

5. Other things being equal, preference will be given in getting tenderers for the supply of pipes, specials, fittings, etc., as per contract No. 1 in addition to laying of the same.

SCHEDULE I.

Schedule of quantities for laying and jointing of cast iron pipes and specials—Distribution system—Sankarpet Water supply Scheme.

Item number, quantity, details of work to be done and units.	
(1) 247,720 c.ft.—Earth work excavation in all soils with all leads and lifts including unwatering of trenches, adjustments and extra charges, etc., for the work with ribbing of trenches as per standard specification and removal of surplus earth and spreading the same within a lead of 300 feet	Per 1,000 c.ft.

* To be supplied during execution.

A. W. ROBERT,
Superintending Engineer, Madras Circle.

Madras, 18th August 1933.

TENDER FOR CONSTRUCTING PUBLIC WORKS DEPARTMENT SUBDIVISION OFFICE AND STAFF QUARTERS AT NOWRANGAPUR.

Tenders will be received by the Executive Engineer, Koraput Division, at his office at Koraput, up to 3 p.m. on 30th October 1933 for the work of "Constructing Public Works Department Subdivision Office and Staff Quarters at Nowrangapur."

The tender should be in the prescribed form obtainable from the Executive Engineer's office.

2. Tenders must be submitted in sealed covers, and should be addressed to the Executive Engineer, Koraput Division, the name of the tenderer and the name of the work being noted on the cover.

If the tender is made by an individual, it shall be signed with his full name and his address shall be given. If it is made by a firm, it shall be signed with the co-partnership name by a member of the firm, who shall also sign his own name, and the name and address of each member of the firm shall be given. If the tender is made by a corporation, it shall be signed by a duly authorized officer who shall produce with his tender, satisfactory evidence of his authorization. Such tendering corporation may be required before the contract is executed, to furnish evidence of its corporate existence.

3. Each tenderer must pay, as earnest money, a sum of rupees six hundred only into the branch of the Imperial Bank of India or into the Government treasury or sub-treasury within the jurisdiction of the Executive Engineer concerned to the credit of revenue deposits on behalf of the Executive Engineer of the Koraput Division and enclose with his tender the challan endorsed accordingly. The earnest money will be refunded to the unsuccessful tenderer on application, after intimation of rejection of the tender or at the expiration of two months from date of tender, whichever is earlier. This refund will be authorized by the Executive Engineer by suitable endorsement on the challan. The earnest money will not be received in cash or currency notes by the Public Works Department officers, save in exceptional cases where there are no treasuries or banks within the jurisdiction of the officer calling for tenders. When currency notes are given, the tenderer should sign his name in full with date, on the back of all the currency notes given by him, whatever their denominations may be.

The earnest money will be retained in the case of the successful tenderer, and will not carry any interest. It will be dealt with as provided in the tender.

4. When a tender is to be accepted, the tenderer whose tender is under consideration shall attend the Division office on the date fixed by written intimation to him. He shall forthwith upon intimation being given to him by the Executive Engineer of acceptance of his tender make a security deposit of rupees one hundred in one of the forms prescribed in the Madras Public Works Account Code and sign an agreement in the proper departmental form for the due fulfilment of the contract. This security deposit together with the earnest money and the amount withheld according to clause 6 of the Standard Preliminary Specification will be retained as security for the due fulfilment of the contract. If a cash security deposit is made by the contractor he shall follow the procedure laid down in the preceding paragraph for payment of earnest money and such deposit will not bear interest. Failure to enter into the required agreement or to make the security deposit as defined in this paragraph shall entail forfeiture of the earnest money.

5. The tenderer shall examine closely, the Madras Detailed Standard Specifications, and also the Standard Preliminary Specification enclosed thereto, and sign the Divisional Office copy of the Madras Detailed Standard Specifications and its addenda volume in token of such study before submitting his tender unit rates which shall be for finished work in situ. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras Detailed Standard Specifications and other documents connected with the contract such as specifications plans, descriptive specification sheet regarding materials, etc., can be seen at any time between 11 a.m. and 4 p.m. on office days, in the office of the Executive Engineer, Koraput Division.

6. The tenderer's attention is directed to the requirements for materials under the clause "Materials and workmanship" in the "Preliminary Specification." Materials conforming to the British Standard Specifications shall be used on the work, and the tenderer shall quote his rates accordingly.

7. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work. He should also inspect the quarries, and satisfy himself about the quality and availability of materials. The names of quarries, kilns etc., wherefrom certain materials are to be obtained will be given in the Descriptive Specification Sheet. The lead etc., of materials to be obtained from the quarries or other sources defined shall be used on the work. In every case the materials must comply with the relevant standard specification. Samples of materials as called for in the standard specifications, or in this tender notice or as required by the Executive Engineer in any case shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor, after examination of the source of materials defined in the Descriptive Specification Sheet, is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the Descriptive Specification Sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials, subject to the approval of the Executive Engineer.

The Government will not, however, after acceptance of a contract rate pay any extra charges for lead or for any other reason, in case the contractor is found later on to have enlarged the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of conveyance, tolls, etc.

8. The tenderer's particular attention is drawn to the sections and clauses in the standard "Preliminary Specification" dealing with—

(1) test, inspection and rejection of defective materials and work,
(2) carriage,
(3) construction plant,
(4) water and lighting,
(5) cleaning up during progress and for delivery,
(6) accidents,
(7) delays, and
(8) particulars of payment.

The contractor should closely peruse all the specification clauses which govern the rates which he is tendering.

9. A schedule of quantities accompanies this tender notice. It shall be distinctly understood that the Government does not accept any responsibility for the correctness or completeness of the schedule, and that the schedule is liable to alterations by omissions, deductions, or additions at the discretion of the Executive Engineer, Koraput division, or as set forth in the conditions of contract. The tenderer will, however, base his lump-sum tender on the schedule of quantities. He should quote specific rates for each item in the schedule, and the rates should be in rupees, annas, and in case of chest pan. The rates should be written both in words and figures and the units in words. The tenderer should also show the totals of each item and the grand total of the whole contract, and quote in the tender in long sum for which he will undertake to do the whole work subject to the conditions of contract. This schedule accompanying the lump-sum tender shall be written legibly and free from erasures, overwritings or corrections of figures. Corrections, where unavoidable, should be made by crossing out, initialling dating and rewriting.

10. Tenders offering a percentage deduction from or increase on the estimate amount, and those not submitted in proper form or in due time will be rejected. Rates or lump sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form the conditions of contract, the drawings, specifications, or quantities accompanying same will be recognized; and, if any such alterations are made, the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12. The price at which and the source from which certain particular materials shall be obtained by the contractor are given at the end of the schedule accompanying the tender form. Tenderers must accept the material at these prices, and shall quote their price for finished work accordingly. Notwithstanding any subsequent change in the market value for these materials, the charge to the contractor will remain as originally entered in the written contract. No cartage or provincial charges will be borne by Government in connection with this supply.

A Bill to consolidate and amend the law relating to the import, transport, storage, production and refinement of petroleum and other inflammable substances.

WHEREAS it is expedient to consolidate and amend the law relating to the import, transport, storage, production and refinement of petroleum and other inflammable substances; It is hereby enacted as follows:—

PRELIMINARY.

Short title, extent and commencement.

1. (1) This Act may be called the Indian Petroleum Act, 1934.

(2) It extends to the whole of British India, including British Baluchistan and the Santhal Parganas.

(3) It shall come into force on such date as the Governor-General in Council may, by notification in the Gazette of India, appoint.

Definitions.

2. In this Act, unless there is anything repugnant in the subject or context,—

(a) "petroleum" means any liquid hydrocarbon or mixture of hydrocarbons, and any inflammable mixture (liquid, viscous or solid) containing any liquid hydrocarbon;

(b) "dangerous petroleum" means petroleum having its flashing-point below seventy-six deg ees Fahrenheit;

(c) "flashing-point" of any petroleum means the lowest temperature at which it yields a vapour which will give a momentary flash when ignited, determined in accordance with the provisions of Chapter II and the rules made thereunder;

(d) "to transport" petroleum means to move petroleum from one place to another in British India, and includes moving from one place to another in British India by sea or across territory in India which is not part of British India;

(c) "to import" petroleum means to bring it into British India by land, sea or air, otherwise than during the course of transport;

(d) "to store" petroleum means to keep it in any one place, but does not include any detention happening during the ordinary course of transport;

(e) "motor conveyance" means any vehicle, vessel or air-craft for the conveyance of human beings, animals or goods, by land, sea or air, in which petroleum is used to generate the motive power;

(f) "prescribed" means prescribed by rules made under this Act.

CHAPTER II.

Control over Petroleum.

Import, transport and storage of petroleum.

3. (1) No one shall import, transport or store any petroleum save in accordance with the rules made under section 4.

(2) No one shall import any dangerous petroleum, and no one shall transport or store any petroleum save in accordance with the conditions of any licence for the purpose which he may be required to obtain by rules made under section 4.

Rules for the import, transport and storage of petroleum.

4. The Governor General in Council may make rules—

(a) prescribing places where petroleum may be imported and prohibiting its import elsewhere;

(b) regulating the import of petroleum;

(c) prescribing the period within which a licence for the import of dangerous petroleum shall be obtained, and providing for the disposal, by confiscation or otherwise, of any dangerous petroleum in respect of which a licence has not been obtained within the prescribed period and which has not been exported;

(d) regulating the transport of petroleum;

(e) specifying the nature and condition of all receptacles and pipe-lines in which petroleum may be transported;

(f) regulating the places at which and prescribing the conditions subject to which petroleum may be stored;

(g) specifying the nature, situation and condition of all receptacles in which petroleum may be stored;

(h) prescribing the form and conditions of licences for the import of dangerous petroleum, and for the transport or storage of any petroleum, the manner in which applications for such licences shall be made, the authorities which may grant such licences and the fees which may be charged for such licences;

(i) determining in any class of cases whether a licence for the transport of petroleum shall be obtained by the consignor, consignee or carrier;

(j) providing for the granting of combined licences for the import, transport and storage of petroleum, or for any two of such purposes;

(k) prescribing the proportion in which any specified poisonous substance may be added to petroleum, and prohibiting the import, transport or storage of petroleum in which the proportion of any specified poisonous substance exceeds the prescribed proportion; and

(l) generally, providing for any matter which in his opinion is expedient for proper control over the import, transport and storage of petroleum.

Production and refinement of petroleum.

5. (1) No one shall produce or refine petroleum save in accordance with the rules made under sub-rule (2).

(2) The Governor General in Council may make rules—

(a) for the determination of the limits of places in which petroleum may be produced or refined;

(b) prescribing the conditions subject to which petroleum may be produced or refined; and

(c) regulating the removal of petroleum from such places and prescribing the storage therein and removal therefrom, except as dangerous petroleum, of any petroleum which has not satisfied the prescribed tests.

Receptacles of dangerous petroleum to show a warning.

6. All receptacles containing dangerous petroleum shall have a stamped, embossed, painted or printed warning, either on the receptacle itself or, where that is impracticable, displayed near the receptacle, exhibiting in conspicuous characters the words "Petrol" or "Motor Spirit", or an equivalent warning of the dangerous nature of the petroleum:

Provided that this section shall not apply to—

(a) any securely stoppered glass, stoneware or metal receptacle of less than two gallons capacity containing dangerous petroleum which is not for sale, or

(b) a tank incorporated in a motor conveyance, or

(c) a pipe-line for the transport of petroleum, or

(d) any tank which is wholly underground.

No licence needed for small stocks of non-dangerous petroleum not in bulk.

7. Notwithstanding anything contained in this Chapter, a person need not obtain a licence for the transport or storage of non-dangerous petroleum if the total quantity in his possession at any one place does not exceed five hundred gallons and none of it is contained in a receptacle exceeding two hundred gallons in capacity.

No licence needed for small quantities of dangerous petroleum.

8. (1) Notwithstanding anything contained in this Chapter, a person need not obtain a licence for the import, transport or storage of dangerous petroleum not intended for sale if the total quantity in his possession does not exceed six gallons.

(2) Dangerous petroleum possessed without a licence under this section shall be kept in securely stoppered receptacles of glass, stoneware or metal.

Exemptions for motor conveyances.

9. (1) The owner of a motor conveyance, who complies with the requirements of the law for the time being in force relating to the registration and licensing for such conveyance and its driver or pilot, shall not be required to obtain a licence—

(a) for the import, transport or storage of any petroleum contained in any tank incorporated in the conveyance, or

(b) for the transport or storage of dangerous petroleum, not exceeding twenty gallons in quantity in addition to any quantity possessed under clause (a),

provided the petroleum is intended to be used to generate motive power for the motor conveyance.

(2) The dangerous petroleum possessed without a licence under clause (b) shall be kept in securely stoppered receptacles of glass, stoneware or metal, and, if it exceeds six gallons in quantity, shall be kept in an isolated place which does not communicate with any room where any person resides or works or in any room where persons assemble.

No licence needed by railway administration as carrier

10. Notwithstanding anything contained in this Chapter, a railway administration, as defined in section 3 of the Indian Railways Act, 1890, need not obtain any licence for the import or transport of any petroleum in its possession in its capacity as carrier. IX of 1890.

Exemption of heavy oils.

11. Nothing in this Chapter shall apply to any petroleum which has its flashing-point not below two hundred degrees Fahrenheit.

Exemption of Government petroleum.

12. Nothing in this Chapter shall apply to petroleum which is the property of or in the possession of Government or of any duly authorised officer acting in the execution of this Act.

Inspection of premises.

13. (1) The Governor General in Council may authorise any officer by name or by virtue of office to enter any premises where petroleum is being imported, stored, produced or refined, or is under transport, and inspect all receptacles, plant and appliances used in or in connection with petroleum in order to ascertain if they are in accordance with the provisions of this Chapter and the rules made thereunder.

(2) The Governor General in Council may make rules regulating the procedure of officers authorised under this section.

CHAPTER II.

[THE TESTING OF PETROLEUM.

Inspection and sampling of petroleum.

14. (1) The Governor General in Council may, by notification in the *Gazette of India*, authorise any officer by name or by virtue of office to enter any place where petroleum is being imported, transported, stored, produced or refined, and to inspect and take samples for testing of any petroleum found therein.

(2) The Governor General in Council may make rules—

(a) regulating the taking of samples of petroleum for testing,

(b) determining the cases in which payment shall be made for the value of samples taken, and the mode of payment, and

(c) generally, regulating the procedure of officers exercising powers under this Section.

Standard Test Apparatus.

15. (1) A standard apparatus for determining the flashing-point of petroleum shall be deposited with an officer to be appointed in this behalf by the Governor General in Council, by notification in the *Gazette of India*.

(2) Such apparatus shall be engraved with the words "Standard Test Apparatus," and shall be verified and corrected from time to time and replaced when necessary, in accordance with rules made under section 21.

(3) The Standard Test Apparatus shall, on payment of the prescribed fee, be open to inspection at all reasonable times by any person making an inquiry.

Certification of other test apparatus.

16. (1) The officer appointed under section 15 shall compare with the Standard Test Apparatus any apparatus for determining the flashing point of petroleum which may be submitted to him for that purpose.

(2) If any apparatus is found by him to agree with the Standard Test Apparatus with sufficient accuracy, the officer shall register such apparatus with a special number and with the date of the comparison, and shall, on payment of the prescribed fee, give a certificate in respect of it in the prescribed form, certifying that on the said date the apparatus was compared with the Standard Test Apparatus and was found to agree with it with sufficient accuracy, and specifying any corrections to be made in the results of tests carried out with the apparatus.

(3) A certificate granted under this section shall, until the contrary is proved, be proof of any matter stated therein.

(4) The officer shall keep a register in the prescribed form of all certificates granted by him under this section.

Testing officers.

17. The Governor General in Council may authorize any officer by name or by virtue of office to determine the flashing-point of petroleum of which samples have been taken under this Act, or which may have been submitted to him for test by any person, and to grant certificates of the results of such tests.

Manner of test.

18. All tests of petroleum made under this Act shall be made with a test apparatus in respect of which there is a valid certificate under section 16, shall have due regard to any correction specified in that certificate, and shall be carried out in accordance with rules made under section 21.

Certificate of testing.

19. (1) The testing officer after testing samples of petroleum shall make out a certificate in the prescribed form, stating the flashing point of the petroleum, and stating, where required, if the petroleum is dangerous or non-dangerous.

(2) The testing officer shall furnish the person concerned, at his request, with a certified copy of the certificate, on payment of the prescribed fee, and such certified copy may be produced in any Court as proof of the contents of the original certificate.

(3) A certificate given under this section shall be admitted as evidence in any proceedings which may be taken under this Act in respect of the petroleum from which the samples were taken, and shall, until the contrary is proved, be proof of the flashing point of that petroleum.

Right to require re-test.

20. (1) The owner of any petroleum, or his agent, who is dissatisfied with the result of the test of the petroleum may, within seven days from the date on which he received intimation of the result of the test, apply to the officer empowered under section 14 to have fresh samples of the petroleum taken and tested.

(2) On such application and on payment of the prescribed fee, fresh samples of the petroleum shall be taken in the presence of such owner or agent or person deputed by him, and shall be tested in the presence of such owner or agent or person deputed by him.

(3) If, on such re-test, it appears that the original test was erroneous, the testing officer shall cancel the original certificate granted under section 19, shall make out a fresh certificate, and shall furnish the owner of the petroleum, or his agent, with a certified copy thereof, free of charge.

Power to make rules regarding tests.

21. The Governor General in Council may make rules—

(a) for the specification, verification, correction and replacement of the Standard Test Apparatus ;

(b) prescribing fees for the inspection of the Standard Test Apparatus ;

(c) regulating the procedure in comparing a test apparatus with the Standard Test Apparatus ;

(d) prescribing the form of certificate to be given in respect of a test apparatus so compared, and the duration of such certificates ;

(e) prescribing the form of the register of such certificates ;

(f) prescribing fees for comparing a test apparatus with the Standard Test Apparatus ;

(g) regulating the procedure of testing officers in carrying out tests of petroleum, providing for the averaging of results where several samples of the same petroleum are tested, and prescribing the variations from standard temperatures which may be allowed ;

(h) prescribing the form of certificates of tests of petroleum and the fees which may be charged therefor ;

(i) providing, where the results of the testing of samples raise a doubt as to the uniformity of the quality of the petroleum in any lot under test, for the division of the lot into sub-lots, and for the selection and testing of samples of such sub-lots and for the averaging of results in accordance with the results of tests of those samples ;

(j) prescribing fees for re-tests under section 10 and providing for their refund where the original test was erroneous ; and

(k) generally, regulating the procedure of all officers performing duties connected with the testing of petroleum, and providing for any matter incidental to such testing.

Special rules for testing viscous or solid forms of petroleum.

22. The Governor General in Council may also make rules providing specially for the testing of any form of petroleum which is viscous or solid or contains sediment or thickening ingredients, and such rules may modify or supplement any of the provisions of this Chapter or of the rules made under section 21 in order to adapt them to the special needs of such tests.

CHAPTER III.

PENALTIES AND PROCEDURE.

General penalty for offences under this Act.

23. Whoever—

(a) in contravention of any of the provisions of Chapter I (excluding section 6) or of any of the rules made thereunder, imports, transports, stores, produces or refines any petroleum, or

(b) contravenes any rule made under section 4 or section 5, or

(c) breaks the condition of any licence held by him, issued under section 4, or

(d) being for the time being in charge of any premises where petroleum is being imported, stored, produced or refined or is under transport, refuses or neglects to allow to any officer authorized under section 13 any receptacle, plant or appliance used on such premises in connexion with petroleum, or in any way obstructs or fails to render reasonable assistance to such officer during an inspection, or

(e) refuses or neglects to allow to any officer authorized under section 14 any petroleum in his possession, or to give him such assistance as he may require for the inspection of such petroleum, or refuses to allow him to take samples of the petroleum, or

(f) being required, under section 28, to give information of an accident, fails to give such information as is required by that section,

shall be punishable with imprisonment for a term which may extend to one month, or with fine which may extend to five hundred rupees or with both.

Penalty for contravention of section 6.

24. Whoever has in his possession any dangerous petroleum in receptacles which, in contravention of section 6, do not show any warning label shall be punishable with fine which may extend to five hundred rupees.

Confiscation of petroleum and receptacles.

23. (1) In any case in which an offence under clause (a) or clause (b) or clause (c) of section 21 or under section 24 has been committed, the convicting Magistrate may direct that—

(a) the petroleum in respect of which the offence has been committed, or

(b) where the offender is convicted of importing, transporting or storing petroleum exceeding the quantity he is permitted to import, transport or store, as the case may be, the whole of the petroleum in respect of which the offence was committed

shall, together with the receptacle in which it is contained, be confiscated.

(2) This power may also be exercised by the High Court in the exercise of its appellate or revisional powers.

Jurisdiction.

26. Offences punishable under this Act shall be triable, in the Presidency-towns, by a Presidency Magistrate, and elsewhere by a Magistrate of the first class, or by a Magistrate of the second class who has been specially empowered by the Local Government in this behalf.

Power of entry and search.

27. (1) The Governor General in Council may, by notification in the *Gazette of India*, authorise any officer by name or by virtue of office to enter and search any place where he has reason to believe that any petroleum is being imported, transported, stored produced or refined otherwise than in accordance with the provisions of this Act and the rules made thereunder, and to seize, detain, remove or, if necessary to destroy, any or all of the petroleum in respect of which in his opinion an offence under this Act has been committed.

V of 1898.

(2) The provisions of the Code of Criminal Procedure, 1898, relating to searches shall, so far as they are applicable, apply to searches by officers authorised under this section.

(3) The Governor General in Council may make rules regulating the procedure of authorised officers in the exercise of their powers under this section subject, however, to the provisions of sub-section (2).

Reports of accidents with petroleum.

28. (1) Where any accident by explosion or fire, which is attended with loss of human life or serious injury to person or property, occurs as the result of the ignition of petroleum or petroleum vapour, or occurs in or near any place where petroleum is kept and under circumstances making it likely that it was the result of such ignition the person for the time being in charge of the petroleum shall forthwith give information to the nearest Magistrate or to the officer in charge of the nearest police station.

Inquiries into accidents connected with petroleum.

V of 1898.

29. (1) The inquiry mentioned in section 176 of the Code of Criminal Procedure, 1898, shall be held in all cases where any person has been killed by an accident which the Magistrate has reason to believe was the result of the ignition of petroleum or petroleum vapour.

(2) Any Magistrate empowered to hold an inquest may also hold an inquiry under the said section into the cause of any accident which he has reason to believe was the result of the ignition of petroleum or petroleum vapour, if such accident was attended by serious injury to person or property, notwithstanding that no person was killed thereby.

(3) For the purposes of this section a Commissioner of Police in a Presidency-town shall be deemed to be a Magistrate empowered to hold an inquest.

(4) The result of all inquiries held in pursuance of this section shall be submitted as soon as may be to the Local Government.

CHAPTER IV.

SUPPLEMENTAL.

Provisions relating to rules.

30. (1) In making any rules under this Act, the Governor General in Council may—

(a) provide for any matter ancillary to such rules for which in his opinion provision is necessary to protect the public from danger arising from the import, transport, storage, production or refinement of petroleum, and

(b) make special provisions for the special circumstances of any province or place.

(2) Every power to make rules conferred by this Act is subject to the condition of previous publication.

(3) All rules made under this Act shall be published in the *Gazette of India*.

Power to apply Act to other substances.

31. (1) The Governor General in Council may by, notification in the *Gazette of India*, apply any or all of the provisions of this Act, with such modifications as he may specify, to any dangerously inflammable substance, other than an explosive, and thereupon the provisions so applied shall have effect as if such substances had been included in the definition of petroleum.

(2) The Governor General in Council may make rules prescribing specially for the testing of any substance to which any of the provisions of this Act have been applied by notification under sub-section (1), and such rules may supplement any of the provisions of Chapter II in order to adapt them to the special needs of such tests.

Power to limit powers of local authorities over petroleum.

32. Where any enactment confers powers upon any local authority in respect of the transport or storage of petroleum, the Governor General in Council may, by notification in the *Gazette of India*,—

(a) limit the operation of such enactment, or

(b) restrict the exercise of such powers, in any manner he deems fit.

Repeals.

33. The enactments mentioned in the Schedule are hereby repealed to the extent specified in the fourth column thereof.

THE SCHEDULE.

ENACTMENTS REPEALED.

(*See* section 33.)

Year.	Number.	Short title.	Extent of repeal.
1899 ..	VIII ..	The Indian Petroleum Act, 1899.	The whole.
1914 ..	IV ..	The Devolution Act, 1914.	So much of the Schedule as relates to the Indian Petroleum Act, 1899.

STATEMENT OF OBJECTS AND REASONS.

The Indian Petroleum Act, 1899, was passed at a time when the use of petroleum, particularly of dangerous petroleum or petrol, was limited, and with the great developments in the use of petroleum that have taken place in the last 30 years it has become unsuitable in several ways. As early as 1903 the attention of the Government of India was drawn to the inconveniences arising from the existence in different provinces of separate sets of rules to regulate the importation, possession and transport of petroleum. The present Act does not permit the issue by the Government of India of a set of rules applicable throughout British India, and the only way in which it has been possible to secure uniformity has been by the issue by Local Governments from time to time of similar rules with the sanction of the Central Government. Local Governments and the interests concerned were consulted on the subject of revising the Act in 1923–26, and it was agreed by all Local Governments that the rule-making power should be transferred to the Central Government. In addition a number of other changes have been proposed in the light of experience. The departures of substance which it is proposed to make from the existing law are explained in the subjoined Notes on Clauses.

2. The opportunity has been taken to rearrange the whole law. In addition to the "Preliminary" portion and the final "Supplemental" chapter, the Bill contains three separate chapters. Chapter I relates to the control of petroleum and Chapter II to its testing, while Chapter III contains the necessary penal provisions and what may be described as criminal procedure.

F. NOYCE.

NOTES ON CLAUSES.

Clause 1.—Only certain portions of the existing Act apply to the whole of British India, while power is given to Local Governments to apply the remainder of the Act to areas within their jurisdiction. Owing to the greatly extended use of petroleum, it is now advisable that the entire Act should apply to the whole of British India.

Clause 2 (c).—The definition of petroleum in the present Act is of the categorical kind; a more technical definition based on the chemical composition of petroleum is proposed.

Clause 2 (h).—The proviso to the definition of "dangerous petroleum" in the existing Act has been omitted as obsolete. Provision for allowing minor variations has been made in the rule-making power in clauses 21 (c) and (d).

Clause 2 (d).—The revised definition of the word "transport" is designed to obviate that petroleum which has started from British India and comes back to British India by sea or across other territory in India shall not be treated as imported.

Clauses 3 and 4 provide for control over the import, transport and storage of petroleum. It is intended that this should be effected mainly by rules, and in addition licences may be required in all cases except in the case of the import of non-dangerous petroleum. Most of the matter contained in clause 4 is already in the existing Act in various forms and places, but the following is new:—

Clause (1) gives power to determine in any class of cases whether the consignee, consignor or carrier shall take out the licence for the transport of petroleum.

Clause (2) will enable Government to prevent injury to persons handling or using petroleum arising from too pressure of an excessive amount of any gaseous substance such as tetra-ethyl lead.

Clause 5 gives powers to control by rules the production and refining of petroleum. No system of licences is contemplated. The powers contained in clauses (c), (j) and (k) of section 5 (2) of the present Act cover most of the grounds on this clause.

Clause 6 corresponds to existing section 7, but proposes to substitute the words "Petrol" or "Motor Spirit" in place of "highly inflammable." The requirement in existing section 7 that lights should be provided showing the name and address of the consignee, owner, etc., has been dispensed with.

Clauses 7 to 12 collect together the exemptions and powers to exempt which are scattered throughout the present Act, but embody some variations or extensions.

Clause 7 imposes the restriction that non-dangerous petroleum possessed without licence shall not be "in bulk," that is, that none of it shall be contained in any receptacle of more than 100 gallons capacity. Thus the size of the receptacle and not the amount of the petroleum in it will determine whether the petroleum is "in bulk" or not. The reason for this change is that a large receptacle containing only a few gallons of petroleum is more dangerous than the same receptacle when full of petroleum, as the space not occupied by the petroleum is likely to be occupied by an explosive mixture of petroleum vapour and air.

Clause 8 provides for the case of persons who use petrol for cleaning, in petrol lamps, in automatic lighters, etc. It increases for this purpose the limit of dangerous petroleum which may be kept without a licence from three gallons to six and reduces to the same limit the amount which may be imported without a licence.

Clause 9 contains exemptions specially intended for owners of motor conveyances. Clause (a) exempts petroleum kept in a tank in a motor conveyance from the requirements of a licence. Clause (b) gives the further concession of allowing the owner of a motor conveyance to keep a stock of spare petroleum not exceeding twenty gallons.

Clause 10.—Railway administrations have elaborate rules for the carriage of petroleum by rail; and this clause proposes to exempt them from the need of taking out any licence in respect of petroleum in their possession as carriers.

Clause 12 is a broader form of the proviso to clause (a) of section 2 of the present Act—definition of petroleum. Petroleum with a flashing point of 200 degrees Fahrenheit or above, whether intended for illumination or not, can hardly be described as inflammable, and there is no need to apply to it the system of rules and licensing contemplated by the Bill.

Clause 13 is new and is based on section 14 of the Indian Explosives Act, 1884.

Clauses 14, 15 and 27.—Section 13 of the existing Act gives power to authorised officers to enquire dealers in petroleum to show the places and vessels in which petroleum is stored or contained, to help in the inspection of petroleum, and to deliver samples on payment. It is proposed to substitute three separate sections for this. Clause 13 relates chiefly to administrative inspection by qualified technical inspectors. Clause 14 gives a purely routine power to take samples. Clause 27 is intended to bring to light evasions of the Act, particularly the concealment of unlicensed stocks, and contains a power of search. The powers under these three clauses are kept separate as they may be exercised by different officers.

Clauses 15, 16 and 17.—All tests of petroleum under the Act will be carried out by specially appointed testing officers using certified instruments. Any private enterprise may submit a test apparatus of its own for certification.

Clause 18.—The present Act has a Schedule containing elaborate provisions describing the nature of the Test Apparatus, the method of drawing samples and the manner in which the test is carried out. The Bill proposes to relegate all these matters of detail to rules which will be more easily adapted to developing conditions.

Clause 19.—Section 14 of the Act contemplates that the testing of petroleum should be confined to determining whether it is dangerous petroleum or not. But section 11 specifies the flashing point of 200° F., and the rules made under the Act may fix other flashing points as determining the nature of the administrative action which should be taken. This clause therefore requires that the certificate of testing should give the flashing point in every case.

Clause 20.—Section 15 of the present Act is so drawn as to give a testing officer discretion to issue a notice to the person concerned of the time and place of the testing of samples. In this clause it is proposed to give the owner a right to re-test in the presence of his representative or himself. Provision is also made in that clause and in clause 21 (*f*) for the issue of a fresh certificate free of all charge if the second test shows that the first was erroneous.

Clause 22 is designed to enable certain special rules to be made in respect of matters included in the statutory schedule to the present Act.

Clause 23 provides a standard maximum punishment of one month's imprisonment and a fine of five hundred rupees for contraventions of the Act and rules generally. *Clause 24* provides for fine only for contraventions of clause 6. These clauses reproduce sections 16 and 16 of the existing Act with drafting changes.

Clause 25 reproduces section 17 of the Act, with drafting changes, and the addition of a new sub-section.

Clause 26 reproduces the substance of section 18.

Clauses 28 and 29 which are new, are based on sections 8 and 9 of the Indian Explosives Act, 1884, but are so drafted as to make them an extension of section 170 of the Code of Criminal Procedure, 1898.

Clause 31 corresponds to section 22 of the Act which enables control to be exercised over inflammable substances like methyl alcohol and carbide of calcium.

Clause 32 is a redraft of section 23 of the existing Act.

The following Bill was introduced in the Legislative Assembly on the 22nd August 1933:—

L.A. BILL No. 37 OF 1933

A Bill further to amend the Indian Income-tax Act, 1922, for certain purposes

Whereas it is expedient further to amend the Indian Income-tax Act, of 1922. 1922, for the purposes hereinafter appearing; It is hereby enacted as follows:—

Short title and commencement.

1. (1) This Act may be called the Indian Income-tax (Third Amendment) Act, 1933.

(2) It shall come into force on the 1st day of April 1934.

Amendment of section 23 Act XI of 1922.

of 1922. 2. In section 23 of the Indian Income-tax Act, 1922 (hereinafter referred to as the said Act), the following sub-section shall be added, namely:—

"(5) Notwithstanding anything contained in section 3, where any portion of an assessee's income is chargeable under the head "Salaries" or under the head "Interest on securities" income-tax but not super-tax on such portion shall, at the time of making an assessment under this section, be charged in accordance with the rates which were in force for the financial year in which such portion was received by the assessee."

Insertion of new section 30A in Act XI of 1922.

Summary assessment of small incomes.

2. In Chapter IV of the said Act, after section 30 the following section shall be inserted, namely:—

"30A. (1) If, at any time when total incomes of less than two thousand rupees are chargeable with income tax, the Income-tax Officer is of opinion that the total income of an assessee is less than that amount, he may, save where he has served on a time under sub-section (2) of section 22 make a summary assessment of the income of such assessee to the best of his judgment, and shall serve on the assessee a notice of demand in the prescribed form; and such notice shall be deemed to be a notice of demand under section 29.

(2) Any assessee in respect of whom such summary assessment has been made may, within thirty days of receipt of the notice of demand, make an application to the Income-tax Officer for the cancellation or revision of the assessment, and the Income-tax Officer shall after examining any accounts and documents and hearing any evidence which the assessee may produce, and such other evidence as the Income-tax Officer may require, determine, by order in writing, the amount of the tax, if any, payable by the assessee, and such determination shall not be subject to appeal under section 30:

Provided that, if any assessee making such application files therewith a return of his income under sub-section (2) of section 22, the application shall be deemed to be a return under that sub-section and shall be dealt with accordingly.

(3) A copy of an order under sub-section (2) shall be served on the assessee to whom it relates and shall be deemed to be a notice of demand under section 29.

(4) In exercising his powers under section 34 of assessing incomes, profits and gains which have escaped assessment in any year or have been assessed at too low a rate, the Income-tax Officer may, in respect of total incomes which in his opinion are less than two thousand rupees, follow the procedure laid down in this section."

Amendment of section 45, Act XI of 1922.

4. In section 45 of the said Act:—

(a) in sub-section (2) the following Explanation shall be added, namely:—

"*Explanation.*—For the purposes of this sub-section, and notwithstanding anything contained in section 3, the rate of income tax applicable to a shareholder's total income of the year in which a dividend was declared shall be the rate so applicable, if any, which was in force for the financial year in which the dividend was declared"; and

(b) in sub-section (5) the following Explanation shall be added namely:—

"*Explanation.*—For the purposes of this section, and notwithstanding anything contained in section 3, the rate of income-tax applicable to a person's total income of the previous year in which any deduction above mentioned has been made shall be the rate so applicable, if any, which was in force for the financial year in which the deduction was made."

STATEMENT OF OBJECTS AND REASONS.

The object of the Bill is to introduce into the permanent Income-tax law two sets of provisions relating to the details of assessment which have in the recent past been the subject from time to time of ad hoc action, which has taken the form either of entries in the Finance Act of the year or of notifications under section 60 of the Indian Income-tax Act, 1922. The desirability of incorporating provisions of this nature in the Income-tax Act itself rather than in the various Finance Acts was strongly represented in the course of debate in the Legislative Assembly during the last budget session. The two sets of provisions concerned relate to—

(i) the reassessment in the following year of tax deducted at source and the like ;

(ii) a summary procedure for the assessment of small incomes.

2. Income-tax is levied by deduction at source at the time of payment on incomes chargeable under the heads "Salaries" and "Interest on securities." Such incomes are also liable to assessment in the ordinary way in the following financial year when the amount deducted at source is duly adjusted (vide section 18 of the Act). As a result of this when the rates are altered, the income of the preceding year under either of these heads as well as the income for that year both become liable to the revised rates. To avoid the hardship involved in the above rule when rates are raised, notifications have in the past been issued under sub-section (5) of the Act applying the rates in force at the time of payment of such incomes to assessments thereof in the following year, while since the practice of giving this relief when rates were enhanced had been established, it became logically necessary to apply the same principle to occasions when rates were reduced, thereby avoiding reassessment and the grant of refunds to all the taxpayers concerned. This last necessity was accepted by the Legislature when it incorporated the proviso in Item A (7) in Schedule II to the Indian Finance Act, 1933. It is now proposed to lay down definitely in the Income-tax Act itself that the rates applicable to the assessment of incomes of this kind shall be the rates in force at the time of payment. Clause 2 of the Bill has been drafted accordingly.

3. Closely connected with the sum of tax actually deducted at source is that of dividends. Sub-sections (1) and (3) of section 48 assume that the rates of tax at the time of the declaration of a dividend or payment of any income under the head "Salaries" or "Interest on securities" will be unchanged at the time a refund is claimed. This leads to very anomalous results when rates are changed and to avoid them, notifications under section 60 of the Act have been issued from year to year in the past. Clause 4 of the Bill proposes to correct this defect in the Act permanently.

4. In the Income-tax Act of 1918, a separate chapter was introduced relating to a summary procedure for the assessment of incomes less than two thousand rupees. As these incomes were exempt from tax when the Indian Income-tax Act, 1922, was enacted, these provisions were omitted. When, however in 1931-32 the limit of exemption was once again lowered to Rs. 1,000, these provisions were revived, and have been hitherto incorporated from year to year in the Finance Act. It is now proposed that they should be incorporated in the Income-tax Act itself, and clause 3 of the Bill has been introduced accordingly.

NOTE.—The prices are the Averages for each district of the retail prices at the several price-recording stations recorded either at the market on market day or if there is no market, on Friday at the highest shop in the station. The prices relate to the kind of rice (or other grains) most commonly consumed, paid by the person who is buying it for consumption.
